

Valencia, May 24<sup>th</sup> 2023

The “Plant Small RNA Biotechnology” group at Instituto de Biología Molecular y Celular de Plantas “Primo Yúfera” (CSIC-UPV) offers a **2-year postdoctoral contract** related to the project CNS2022-135107 "**art-sRNA-vacs**" funded by Ministerio de Ciencia e Innovación (MCIN), the Agencia Estatal de Investigación (AEI) and the European Union "NextGenerationEU"PRTR".

The project seeks to develop next-generation artificial small RNA-based RNA interference (art-sRNAi) tools for antiviral crop protection.

Starting date: July-September 2023.

Candidate requirements:

- PhD in Plant Sciences.
- Experience in RNA biology and/or plant virology is appreciated.
- High motivation to work in a team and multidisciplinary environment.
